PARTNERING WITH FAMILIES ON THEIR JOURNEY

We believe in partnering with individuals and families to help them reach financial stability and independence. During our last fiscal year, we impacted the lives of 26,602 individuals, from infants to older adults, across all eight counties of Northern Kentucky and beyond.

Knowing that the challenges families and communities face are often complex and that making positive changes require long-term holistic and comprehensive services, Brighton Center provides a true community of support through our 45 programs. Our secret to success in working with families is not only “what” services we provide, but “how” we provide them! Rooted in our core values and guided by our mission, we strive to create an empowering, judgment free atmosphere for individuals and families to create a path toward self-sufficiency.

BUILDING SELF-SUFFICIENCY HOW WE TRANSFORM LIVES

To us, self-sufficiency is taking responsibility to provide for yourself and your family using available resources to maintain the best quality of life possible. Our approach is based on the philosophy that families become our partners in creating change by sharing their hopes and dreams then setting goals to accomplish them. Self-sufficiency is a constantly evolving process and we have learned that families move through the continuum based not only on their current situation, but also their long-term goals. These ideas guide our work, our interactions with the community, and our actions in helping people build connections, skills, and a future.
