Hi!

My name is Amy, and I will be the new YLD Facilitator at Newport schools this year! I am so excited to bring in great social emotional lessons, science and STEM experiences, crafts, and more! A little about my background- I am a retired teacher of 24 years from Walton Schools and I am National Board Certified. I have had many experiences before that such as military service (Army), factory work and being a stay-at-home mom and foster mom, to name a few. I have two grown children, and altogether there are six grandchildren in my life! I live at home with my two cats and a dog and I enjoy gardening, research and crafts. I look forward to meeting our participating youth this year, and I want to truly encourage any youth who do not have a club or activity, to consider joining YLD! It truly is a life-changing experience!
